## Classroom Management Songs is pivotal to the running of my classroom.

The songs engage children in the delight of music and singing, instantly focus the children to what learning is coming next, direct children to a particular place, provide stillness for the teacher to give an instruction as well as rehearse past and current learning. Many visitors to my classroom have voiced their amazement at the power of the songs and said what an excellent idea they are.

My pupils sing these songs with vigour and joy and have now even started to suggest their own verses.

## Good Morning Monday!

**Sarah Watts**

Twenty songs about justice, patience, caring, friendship and sharing. Some songs are upbeat and simple, suitable for Key Stage one, but there are also songs for Key Stage two that tackle world and moral issues. Sarah's greatest talent is her ability to write contemporary words and tunes that everybody wants to sing.

Be patient  
Believe in the future  
Don't be afraid of spiders  
Everybody's good at something  
God is so much more  
Good morning  
Good morning, Monday (or any day)  
Hey, good morning  
I could be a friend  
I'm in the mood for smiling  
Light of the world  
My peace I give to you  
One team  
Stuff!  
The world would be sad  
This soul has a body  
Try, try, try it again  
Was it a good idea?  
What shall I be? It's up to me  
What shall I do with today?

**Book & 2 CDs**

## Good Morning Tuesday!

**Nick Fawcett / Sarah Watts**

Twenty more songs for collective worship, with themes that include valuing self, compassion, forgiveness, humility, generosity, social concern and hope. Sarah's and Nick Fawcett's greatest talents are their abilities to write contemporary words and tunes that everybody wants to sing.

A group of thieves were waiting  
A man he was praying  
All of us are different  
Don't bear a load on your shoulders  
Don't big yourself up  
Flowers in the springtime  
For all that we've accomplished  
Hear the chime of church bells ringing  
I may not be an Einstein or Isambard Brunel  
If a friend's in need and you just don't care  
If I make things up, if I tell you lies  
In 55 BC  
People see things this way  
So much in this land to bless  
There's too much hurting, too many tears  
Though we come from different places  
Twelve plus twelve is twenty-four  
When a challenge starts off easy  
When I fail to be the person  
When you're feeling nervous, when you're feeling scared

How do we teach our children and young football fans about tolerance, peace and forgiveness, both on and off the pitch? This new musical, created specifically for schools, is a modern take on the parable of the Good Samaritan that will resonate with Key Stage 2 children who will easily identify with the challenges faced by Zac, the main character.

With an uplifting and toe-tapping musical score by Barry Hart and lively words and lyrics by father and daughter team, Paul and Anna Cookson, *The Shirt* is a heartfelt and powerful way of teaching children about loving their neighbour and an effective challenge to intolerance and discrimination.

## Barry Hart

Barry Hart, has been playing music, composing and conducting for more years than he cares to remember! As a self-taught guitarist he grew up in the rock 'n' roll era and spent many hours trying to figure out just how Buddy Holly played those sparkling guitar parts. Gigging in Sixties rock bands was followed by college and, throughout the years that followed, Barry composed in many different musical genres. These included musicals, choral items and worship songs. London performances of his choral works for children include the Royal Festival Hall, the Royal Albert Hall and Westminster Cathedral.

We bring our prayers

### School

Each morning of the week  
How many people have I met today?  
I went to school one morning  
It must be rather scary  
Left click, right click  
On our school, your blessing Lord  
Our school is a busy place  
Reasons for not coming to school  
School is ending  
The school rule song  
This is our school  
When the school bell rings  
Seasons  
Autumn days when grass is jewelled

I feel spring in the air today  
It's a lovely warm day  
It's a beautiful day in springtime  
Little April showers  
Oh, I love the colour green  
Say 'Hello' to summer  
Seasons spinning in a circle  
Summertime  
Thank you for the summer morning  
Thank you, God, for the spring time  
The weather safari  
Times change  
Wet weather  
When the winter day is dying  
Winter days are short and cold

### Thanksgiving

A wiggly waggly wormn.  
At the end of the day  
Caterpillar, caterpillar  
Family history  
Give thanks with a grateful heart  
God gave me a body  
I didn't want my glasses  
I will enter his gates with  
thanksgiving in my heart  
If I were a butterfly  
If the sun is shining down  
If you're feeling sad  
I'm special  
Let's take care of our body  
Praise and thanksgiving  
Prayer's like talking on a mobile phone  
Thank you for saving me  
Thank you for the blood  
Thank you for the cross, Lord  
Thank you for the cross, Lord  
Thank you Jesus for your love  
Thank you, Lord for this new day  
Thanks to you  
Try to imagine  
We really want to thank you, Lord  
We've a sing-along song  
What's the surprise?  
When I am hurt  
When I look into the sky  
You are wonderful  
You're a good dog

# RECORDER TUTORS

## Sarah Watts

Sarah Watts is a prolific composer whose passion is to make music-learning fun. Her books for most instruments and choirs are all published by Kevin Mayhew. She has works in all the major exam syllabuses and has written for the Associated Board Music Medals.

All of Sarah's music may be viewed at [www.kevinmayhew.com](http://www.kevinmayhew.com) and Sarah's own website is at [www.sarah-watts.com](http://www.sarah-watts.com)

## Ready, Steady Recorder!

Sarah Watts

This is a colourful recorder tutor which guides children from the very beginning, including how to hold a recorder properly. Key symbols are explained at the outset and repeated throughout to encourage and aid learning. Music notes are introduced slowly and clearly, enabling good technique and musical literacy.

There are plenty of short pieces with jazzy piano or CD accompaniments at all stages and many of them have fun words or actions. Rhythms are clapped out, musical terms and symbols explained simply and games help promote understanding, all of which make this book comprehensive yet enjoyable, easy to follow and fun!

And the best news of all is that the teacher doesn't have to be a recorder player or a musician – just one step ahead of the children!

## Jazz Keys Flute Lindsey Berwin

Jazz Keys is a brand-new series of 5 books, taking a novel approach to improving students' sight-reading skills, whilst supporting the requirements of the ABRSM examination board.

In the same manner as *FunKey!* (see page 38), its piano counterpart, *Jazz Keys* contains pieces in a variety of styles, notably rock, swing and Latin, increasing in difficulty from Level 1 up to Level 5. Uniquely, these pieces first appear in C major/A minor, then in the other keys needed for the comparable examination sight-reading tests. In this way, the students' sense of key and their understanding of transposition will be developed and reinforced.

Each book comes with an accompanying CD, helping to improve the students' rhythmic awareness and their ability to play fluently. The combination of fun material and wonderfully crafted backing tracks is sure to appeal to students of all ages, and to change sight-reading into a pleasurable activity.

## FunKey! 1 - 5

Lindsey Berwin

*FunKey!* is a brand-new series of five books of short pieces, designed to develop students' sight-reading skills and awareness of key, using fun material which supports the sight-reading requirements of the ABRSM examination board. The pieces are in a variety of styles, notably rock, swing and Latin, increasing in difficulty from Level 1 up to Level 5. Each book comes with an accompanying CD, which has a backing track for every piece and a backing with melody incorporated for the first key in the book.

### The principal intentions of *Jazz Keys* are as follows:

- To encourage the students' desire to sight-read regularly, and to change an element of flute playing which is often seen as intimidating into a pleasurable one.
- To improve:
  - the reading of notation and its association with the keyboard
  - the ability to read and play hands together, from Level 2, in a variety of five-finger positions, gradually moving towards the more complex needs of Level 5
  - knowledge of, and familiarity with, an increasing number of keys
  - rhythmic awareness and confidence, and the ability to play fluently.

The pieces first appear in C major/A minor, then in a series of other keys according to the needs of the comparable examination grade, with the addition of E minor in Level 1 and B minor in Level 2. The experience of playing the same music, but with the required sharps or flats, reinforces the students' sense of key, and their understanding of transposition.

Each piece in Levels 1 and 2 is written so that it can be played in one hand position, as is the case in the ABRSM sight-reading syllabus. In certain keys this inevitably results in the thumb and 5th finger using a black note, which some students may find awkward. In that case, it is of course advisable to find an alternative fingering. The tempo of the backing tracks is deliberately on the cautious side, even in pieces where the performance direction indicates a quick speed. This is to build up students' confidence in using an accompaniment, and to encourage fluency.

1. C major/A minor

2. Key of E

3. First Jazz

## Hot Keys Piano 1 and 2

**Sarah Watts and Rebecca Holt**

Improvisation and creativity are encouraged from the start, with duets throughout the book to introduce ensemble playing. Although aimed at students from seven years upwards, the up-beat pieces and approach make it just as suitable for the older beginner.

*Hot Keys* teaches piano technique and music literacy in a rounded and imaginative way. Both note reading and pattern recognition are of equal importance to creative opportunities such as composition, improvisation and playing by ear. Many of the pieces have words to aid note and rhythm learning, and there are inspiring accompaniments for the teacher to play.

The innovative ideas and exercises encourage a good foundation and make learning the piano an enjoyable experience. Teacher and pupil parts are both available on the CD and MP3 backing tracks, which also include a rhythm section.

## Tip-top Trumpet Tunes & Tip-top Trombone Tunes

**Marian Hellen**

**Tip-top Trumpet Tunes** (for all treble clef brass instruments except trombone) and **Tip-top Trombone Tunes** are fun resource books with everything you need for complete beginners up to Grade 2 standard. They are full of tunes specifically designed to make learning easy and fun, and include many favourites that children love to play.

The books are a complete resource for beginners, containing a large selection of tunes, starting on just two notes. They recognise that not all beginners find the same notes accessible or learn at the same rate, so there are numerous pieces using an assorted variety of notes and the books progress slowly and gradually onto new notes and rhythms. This is ideal for beginners who have no prior musical knowledge or who struggle to produce notes in certain registers. Other students can move on more quickly to new notes and explore more rhythmic ideas, but the early pieces make great sight-reading material.

**Tip-top Trumpet Tunes**  
 3612553 / £10.99

Basic theory is set out at the beginning and a 'Rhythm Section' on one note (which can be any suitable note) helps players to start learning new rhythmic ideas without having to think about playing different notes. Later in the book, more complex rhythms are explored more thoroughly and as new notes are introduced, there are many opportunities for playing in different keys and learning key signatures. At the end of the book is a section of lip flexibility exercises that can be started on at any time, all the scales and arpeggios for Grades 1 and 2, and a fingering chart.

**Tip-top Trombone Tunes**

## Marian Hellen

Marian studied her music degree at Colchester Institute. Her varied musical career includes teaching, orchestral coaching, freelance horn playing in orchestras, ensembles and theatres, and even performing as a keyboard player in a dance band.
